a conservative s treatise on american government brings with the meaning of the constitution s core which holds the keys to successful republican governance the book then describes their distortion by the federal government s three branches followed by one modern conservative s view of the corrections needed to return our government to working for is instead of on us finally the book is a clarion call for all americans to confirm the realignment elections of 2010 in 2012 and beyond the author finishes with this challenge from leonidas to one who demand he lay down the implements of greek freedom come and take them

the new edition of this text examines the bush presidency and the 2004 election the first administration under george w bush the terrorist attacks of september 11 and the invasion of iraq are included giving students an understanding of the nature of presidential power

in this introductory american politics text cal jillson provides not only a sense of how politics works today but also how institutions systems political participation and

policies have developed over time to produce today's political environment in the United States. This historical context provides the necessary backdrop for students to understand why things work the way they do now. Going one step further, the book identifies critical reforms and how American democracy might work better in a streamlined presentation. Jillson delivers a concise and engaging narrative to help students understand the complexities and importance of American politics. Key features of the 4th edition include a thoroughly updated analysis of the 2006 mid-term elections and a shift in partisan control of Congress. Chapter-opening focus questions, illustrative figures, and charts let students compare and contrast key terms, timelines, and end-of-chapter suggested readings and web resources. A companion website for students, americangovernment.routledge.com, features chapter summaries, focus questions, practice quizzes, glossary flashcards, participation activities, and links to instructor resources on the web and on CD-ROM, including a testbank, instructor's manual, figures, and tables from the text, and lecture outlines.

Between 1867, the year of the Alaskan purchase, and the beginning of World War I, Russian and American dignitaries, diplomats, businessmen, writers, tourists, and entertainers crossed between the two countries in surprisingly great numbers. Concord and conflict provides the first comprehensive investigation of this highly transformational and fateful era in Russian-American relations, excavating previously unmined Russian and American archives. Norman Saul illuminates these fifty significant and open years of association between the two countries; he explores the flow and fluctuation of economic, diplomatic, social, and cultural affairs, the personal and professional conflicts and scandals, and the evolution of each nation's perception of the other.

The most detailed study of Soviet military industrial espionage during the 1930s, 1940s, and 1950s, spying aimed specifically at acquiring restricted information and materials relating to American industry, technology, and science.
